

Stretchers

Safer transport for patients and caregivers

Enhancing outcomes for patients and their caregivers:

Hill-Rom

Hill-Rom Stretchers

A critical component of a patient's journey throughout a healthcare facility, the Hill-Rom range of stretchers is designed to facilitate the safe and efficient transport and management of patients.

By incorporated features such as additional fifth castors for easier patient transport, or AutoContour to assist in repositioning, the stretcher portfolio offered by Hill-Rom offers caregivers the ability to more safely and efficiently transport patients.

Hill-Rom stretchers work to enhance caregiver and patient safety. The BackSaver Fowler feature uses the patient's own weight to assist caregivers in raising or lowering the head section of the stretcher easily and comfortably.

As well, enhanced stability comes from the AutoContour feature, which raises the knee section of the stretcher to minimise the need for patient repositioning.

Procedural Stretcher*

- Tuckaway siderails for zero transfer gap
- Fifth wheel mobility
- BackSaver Fowler and Auto Contour

Transport Stretcher*

- Optional fifth wheel mobility
- Ergonomic push handles

Trauma Stretcher*

- Full length X-Ray cassette holder
- X-Ray lift handles on both sides

Durability and reliability are key requirements across all patient care environments.

Hill-Rom stretchers are built using heavy-gauge, steel-reinforced frames, ensuring durability even with frequent usage. Ensure a safer, more comfortable experience for both caregivers and patients with the complete range of stretchers from Hill-Rom.

Electric Stretcher**

- Patient head and knee controls
- Lockout controls for caregivers
- A convenient handbrake assists caregivers in negotiating ramps and corners without needing to utilise their body weight, resulting in safer transport.

OB-GYN Stretcher**

- Integrated foot supports
- Stowable foot section

Surgical Stretcher**

- Flexible head section
- Surgical rail for accessories

4-sided braking and steering are available as an option on all stretchers.

For additional information on Hill-Rom stretchers, please consult the individual technical specifications for each product, as well as the stretcher accessories document.

Hill-Rom is a leading global medical technology company with more than 10,000 employees worldwide. We partner with healthcare providers in more than 100 countries, across all care settings, by focusing on patient care solutions that improve clinical and economic outcomes in five core areas: **Advancing Mobility, Wound Care and Prevention, Patient Monitoring and Diagnostics, Surgical Safety and Efficiency and Respiratory Health.** The people, products and programs of Hill-Rom work towards one mission: **Every day, around the world, we enhance outcomes for patients and their caregivers.**

Hill-Rom is committed to the concept that mobilising people early and supporting their independence, improves life - in the hospital and at home.

Hill-Rom stretchers are intended for caregivers to use for the treatment and transportation of patients in all areas of the hospital, surgical centres and other patient care facilities.
